

Microbiology Specimen Collection

<p>ESwab – White Cap <i>For anaerobic, aerobic, MRSA/MSSA PCR, H1N1 and viruses by PCR – Ambient, SwabOne™ Panels</i></p>	
<p>ESwab – Green Cap or Blue Cap <i>For nasopharyngeal or urethral sites for culture; Bordetella pertussis – Ambient</i></p>	
<p>Ova & Parasite Transport SAF Media <i>For O&P, Cyclospora, Cystoisospora, Microsporidia – Ambient</i></p>	
<p>Stool Culture Cary – Blair Media <i>For Salmonella, Shigella, Aeromonas, Plesiomonas, Campylobacter, Shiga Toxin, Vibrio, Yersinia – Ambient</i> <i>Giardia, Cryptosporidium, E. histolytica by PCR – Ambient</i></p>	
<p>Aptima Unisex Swab – Female <i>For Chlamydia/GC and/or Trichomonas vaginalis Nucleic Acid Amplification – Ambient or Refrigerated</i></p>	<p>Aptima Unisex Swab – Male <i>For Chlamydia/GC only – Ambient or Refrigerated</i></p> 
<p>Aptima Urine – Female or Male <i>For Chlamydia/GC and/or Trichomonas vaginalis Nucleic Acid Amplification – Ambient or Refrigerated</i></p>	
<p>Aptima Vaginal Swab <i>For Chlamydia/GC Nucleic Acid Amplification, Throat or Rectal (Female or Male)</i> <i>For Chlamydia/GC Trichomonas vaginalis, Vaginal (Female only) – Ambient or Refrigerated</i></p>	
<p>Nasopharyngeal Wire Swab <i>For Rapid RSV and Rapid Influenza only – Ambient</i></p>	
<p>UTM Transport Media <i>Media for Mycoplasma, Ureaplasma, C. trachomatis Culture, and Mumps PCR or MERS CoV – Refrigerated</i> <i>Rapid RSV – Ambient</i> <i>Rapid Influenza – Ambient, SwabOne™ Panels, Refrigerated</i></p>	
<p>Anaerobic and Aerobic Blood Culture Bottles Ambient</p>	
<p>Pediatric Blood Culture Bottle Ambient</p>	
<p>Pinworm Paddle Ambient</p>	

Urine Specimen Collection

<p>4 mL Urine Collection Tube with Straw <i>Submit 4 mL gray top when requesting URINE CULTURE.</i> Ambient</p>	
<p>8 mL Urine Collection Tube with Straw <i>Submit 8 mL red/yellow top when requesting URINALYSIS.</i> – Ambient</p>	
<p>Urine Transport Tube Refrigerated</p>	
<p>4 mL AND 8 mL Urine Collection Tubes with Straw <i>Submit both 4 mL gray and 8 mL red/yellow top tubes when requesting urinalysis AND Urine Culture or Urinalysis with Culture, if indicated.</i> – Ambient</p>	

Clinical/Pathology Specimen Collection

<p>Sterile Container <i>For C. difficile Toxin Assay, Stool for WBCs, Occult Blood – Card Test, Rotavirus, Cytology Body Fluids</i> Refrigerated</p>	
<p>FOBT – Chek <i>For Occult Blood – Immunochemical</i> Ambient</p>	
<p>Quantiferon TB <i>Special handling required. Shake tubes firmly 10 times. Refer to Directory of Services or contact Client Services.</i> – Ambient</p>	
<p>Salivary Cortisol Ambient</p>	
<p>Thin Prep PAP Kit <i>Broom or Brush</i> Ambient</p>	
<p>HPV Collection Device Ambient</p>	
<p>ThinPrep Cytolyt Solution <i>Cyto FNA, rinse or brush</i> – Ambient</p>	
<p>Formalin Containers 10 mL 10% Neutral Buffered Formalin 60 mL 10% Neutral Buffered Formalin 120 mL 10% Neutral Buffered Formalin Ambient</p>
